

## Now Enrolling for Summer 2018

*Enroll Now*

### Early Literacy Summer Program

It's no secret that school standards are increasing. Each passing year, parents are shocked at the new requirements that are expected of their children in their first years of school. These formative years will create the foundation for school success, and have a large impact on their future education. Here at LELC, we specialize in accelerated learning, academic coaching, and mentoring for students of all ages. Our early literacy Summer program offers up and coming readers a chance to learn strategies that will give them the confidence they need to succeed in reading. To inquire more information call us today at 909-646-7475

### GED Prep Classes

Leading Edge Learning Center has GED classes available in several locations, classes will be starting as early as June 2018! This course helps you prepare by developing your skills in all of the areas covered within the test, including science, math, social studies, reading and writing. Information and assistance is provided for locating and registering for test taking. Ages 18 & Over. Contact us for start dates, times and pricing. Don't forget to check out our other test prep classes and programs!

### Summer Saturday Classes

Get ahead and stay ahead this Summer with our academic coaches! We're now enrolling for our Summer Saturday classes! Save your seat in Reading & Writing Enrichment, Math Made Easy and Spanish For Young Minds. Signup for one or all three subject based classes today!

### Summer In Spanish

Our 'Summer in Spanish' course introduces middle school and high school students to the language in a fun and friendly environment. Teens will learn basic words, common phrases and beginner conversation with the use of creative instruction and activities. This course is especially designed to stimulate their development of a second language. Classes will be held M/W 1:30pm-2:30pm or T/Th 1:30pm-2:30pm

### Summer STEM

Our STEM Program, instructed by our academic coaches, includes STEM lessons that use hands-on activities focused on fun, real world experiences. Though hands-on activities and STEM challenges, children will think, construct, experiment, discover and develop the desire to learn lots more! Every week, they'll learn something new and explore a different kind of fun!

### Summer Bridge

Reinforce your child's academic development while away from school. This program lets your child practice the skills from their current school year and get a head start on their next grade level. Daily activities include reading, writing, mathematics, and language arts with bonus activities in core subjects like geography, science, or history.

*June 2018 Promotion:*
